

Rothco G.I. Style Beret

Rothco's G.I. Style Berets come in a variety of colors; perfect for parades, costumes, or everyday wear. The Army style berets are made of a lightweight blend of 95% wool / 5% nylon and contain a cotton liner for added comfort. The drawstring vinyl trim allows you to adjust the fit and prevents the beret hat from fraying, giving your beret a longer lifespan. The military-style berets include dual side eyelets to keep your head cool. For attaching a flash, the combat berets feature a built-in clutch (badge not included).
